

Rope Program Student Information

Class Times: 0815 - 1600 hrs each day. Class may run late some days. Prepare for a full day. Consult syllabus for daily outline and information.

PPE Requirements: Each day you will be required to bring long pants, sturdy boots, leather gloves, helmet with chin strap, harness (within 10 yrs of manufacture), and water bottle. Be prepared for in-climate weather. Some instruction may be outside.

Textbook Information: FOG manual and textbook will be followed and **highly** recommended for purchase to help with both practical evolutions and OSFM exam.

- **FOG Manual:** “*The Essential Technical Rescue FOG Manual - 5th Edition*”, by Tom Pendley. Use coupon code **nipsta21** at www.desertrescue.com/edition-5/ to receive a discount.
- **Textbook:** “*High Angle Rope Rescue, levels 1 & 2, 4th Ed*”, including Navigate2 online software, good for 1-year.
 - **For textbook and digital resources** - <http://www.jblearning.com/cart/Default.aspx?bc=13615-9&ref=psg&coupon=NIPSTA25>.
 - **For digital resources only** - <http://www.jblearning.com/cart/Default.aspx?bc=12175-9&ref=psg&coupon=NIPSTA25>
 - Use **Course ID #66858E** to access class material

Class Handouts and Note Taking: There will be no class handouts. It is recommended to bring paper and pen. Computers and/or tablets are acceptable as well. Students can follow along with powerpoint on their computer during lecture.

Pre-course assignments: Read Chapters 1-7 in textbook and review FOG manual prior to the first day of class. *(Rope Tech students should review highline videos on Navigate2).
